SUMMARY

Staff engineer with 10+ years building distributed systems and developer platforms. I lead through design, mentor across teams, and ship reliable software at scale.

EXPERIENCE

Cloud Systems Inc

Staff Software Engineer

2021 - Present

Anytown, USA

- › Led the redesign of the multi-region control plane, cutting failover time from 90s to under 8s.
- › Grew the platform team from 4 to 12 engineers while keeping on-call load flat.
- › Drove adoption of a typed config framework now used across 30+ services.

Data Platform Co

Senior Backend Engineer

2017 - 2021

Remote

- › Built a streaming ingestion pipeline handling 2M events/sec at p99 < 40ms.
- › Reduced cloud spend 38% by rearchitecting the storage tier.

Analytics Startup

Software Engineer

2014 - 2017

Sometown, USA

- › Shipped the first version of the analytics API adopted by 500+ customers.

PROJECTS

openschema

Schema-first codegen for gRPC and REST

<https://example.com/openschema>

- › 3.5k GitHub stars; used in production by several mid-size companies.

ratelimit-rs

Lock-free token-bucket rate limiter

<https://example.com/ratelimit-rs>

- › Zero-allocation hot path benchmarked at 60M ops/sec/core.

EDUCATION

Northgate University

M.Eng. Computer Science

2010 - 2014

Anytown, USA

First-class honours. Dissertation on consensus under partial synchrony.
